

commercial & industrial energy audit program

Dear Commercial and Industrial Members,

Union Rural Electric is pleased to announce an energy audit program for this year. This program is designed to help you reduce energy consumption and improve your buildings performance. URE is working in conjunction with our electric generation provider, Buckeye Power, to provide the following:

C&I Energy Audit Program

- The program designed to provide a 50% reimbursement for the cost of a professional energy audit (maximum rebate amount \$2,000). Pre-approval of the audit proposal from the auditing firm by Buckeye Power is required.
- An additional 50% reimbursement (maximum rebate amount \$3,000 of project costs) for electric energy saving projects recommended in the audit that are performed within one year from the date the energy audit results report is completed.
- Any projects which fall under the C&I Custom Program are excluded from this program.
- The Cooperative is responsible is required to confirm the installation of the energy saving materials.
- “C&I Energy Audit –Energy Efficiency Improvements” form is required for the improvements rebate as well as a detailed invoice from the installation contractor.

Included with this letter are the “C&I Energy Audit-Energy Efficiency Improvements” document. Please read this form carefully as there are specific guidelines which must be followed should you wish to participate in this program.
